Quarkdown Mock

Giorgio Garofalo © 2024-2025

Abstract

Welcome to Quarkdown's mock document. This comprehensive document serves as a **detailed reference** guide for all the visual elements that can be featured in a Quarkdown-generated document, and is structured to provide **clear and concise examples** of each. It is designed to be a resource for the interested in creating, refining and testing their own themes.

Whether you are looking to experiment with **color schemes, typography, or layout designs**, or just taking a look at some Quarkdown snippets, this mock document will provide the support you need.

To compile this document, run:

```
quarkdown c mock/main.qmd -p
```

Different themes and document types may be tested by changing the first lines of `main.qmd`.

In ultrices lectus ac iaculis cursus. Phasellus at luctus nibh, non porttitor ex. Vestibulum ligula metus, dignissim ac nisi non, tristique hendrerit purus.

2 Paragraphs

All you need is a dream in your heart, and an almighty knife. Learn when to stop. No pressure. Just relax and watch it happen. Get away from those little Christmas tree things we used to make in school.

Let your heart be your guide. A thin paint will stick to a thick paint. There comes a nice little fluffer. It's a very cold picture, I may have to go get my coat. It's about to freeze me to death.

And I know you're saying, 'Oh Bob, you've done it this time.' And you may be right. You have to make almighty decisions when you're the creator. You create the dream — then you bring it into your world.

Anytime you learn something your time and energy are not wasted. Just think about these things in your mind and drop em' on canvas. At home you have unlimited time. Isn't that fantastic? You can just push a little tree out of your brush like that.

Little trees and bushes grow however makes them happy. The light is your friend. Preserve it. Let's make some happy little clouds in our world. When you do it your way you can go anywhere you choose. You can create anything that makes you happy.

Zip. That easy. If you don't think every day is a good day — try missing a few. You'll see. Get tough with it, get strong. Think about a cloud. Just float around and be there.

Here we're limited by the time we have. With something so strong, a little bit can go a long way. You don't have to spend all your time thinking about what you're doing, you just let it

happen. Just let your mind wander and enjoy. This should make you happy. A big strong tree needs big strong roots.

4.1 Floating

The more that you practice, the more you're able to visualize things. Beauty is everywhere; you only have to look to see it. However you want to change this, that's the way it should be. It's a lot of fun. If you comply with that rule, how can you go wrong? Get a nice, even distribution of paint all through the bristles. We don't know where that goes — it doesn't matter at this point. Let's just have a good time.
Anything you are willing to practice, you can do! Think like a cloud.

7 Text formatting

7.1 *Emphasis*

You can't have light without dark. You can't know *happiness* unless you've known **sorrow**. Let's have a ~~nice~~ *tree right here*. Now **we don't want him to get lonely**, so we'll give him a little *friend*. We start with a ***vision*** in our ***heart*, and ~~we put it~~ on canvas**. If I *paint something*, **I don't want to *have* to explain** what it is.

7.2 Code

After running `quarkdown c file.qmd -p`, a webserver will run on port `8089`.
It may also be changed it via `--server-port <port>`.
Combining `-p` with `-w` enables live content reload!

7.3 Link

Did you know Quarkdown's wiki is a great place to start? Check it out!

7.4 Advanced formatting

This is an *example* of what you can do with just a ~~few things~~, a little imagination and a happy dream in your heart. THAT EASY.

The quick brown fox jumps over the lazy dog.

The quick brown fox ~~jumps over~~ ~~the lazy dog~~.

the quick BROWN FOX Jumps Over The Lazy Dog.

THE QUICK BROWN FOX JUMPS OVER THE LAZY DOG.

Some nice clouds!

A B C

There it is. In nature, dead trees are just as normal as live trees. Just a happy little shadow that lives in there. If you didn't have baby clouds, you wouldn't have big clouds.

That's it.
